We understand that updates are currently in development for changes required by House Bill 2223 for the CBM002 and CBM00S. We have heard from several institutions that the time frame for making these changes is proving to be challenging. To provide institutions time to adapt to the changes required for their CBM reporting and Student Information Systems, reporting due dates for the spring semester for the two reports will be delayed four weeks to provide time to test and implement.
